

Osmaston Primary School Sport Premium Allocation

What is the Sport Premium Funding?

In order to 'Inspire a Generation' after the 2012 London Olympic Games the government pledged £150,000,000 of Sport Premium funding per annum to primary schools. This money was to be used purely on Physical Education (PE) in order to promote healthier lifestyles, raise achievement in PE lessons and to inspire children not yet engaged in PE.

The money, £8000 per school, plus some extra depending on the number of children in the school, was initially for one year but has now been extended for a further 4 years.

How can the Sport Premium be used?

Schools can use it to:

- employ experts to train staff to have more expertise and confidence delivering PE
- employ specialist sports coaches to help increase the skill level of staff delivering PE and sport in school
- support the leadership and management of PE
- increase the facilities and equipment for PE and sport in school
- develop extra-curricular sports clubs
- work in partnership with other schools
- enter more competitions

Sport Premium Allocation 2015 – 2016

For the academic year 2015 – 2016 Osmaston Primary School will receive £10,105 of the Sport Premium funding.

The following main foci for the Sport Premium funding have been identified:

- the employment of a Derby City SSP PE specialist to coach and mentor teachers in lessons to increase their subject knowledge and confidence in delivery of PE
- the employment of additional Premier Sports coaches to run competitions and to increase pupils' participation in inter-school competitions
- raising the achievement and motivation of pupils during play time and lunchtime by training Year 2 and Year 5 Mini Leaders
- developing intra school competitions from FS2 to Year 6

- supporting the leadership and management of PE by funding training for one member of staff to access the Level 5 Professional qualification in 'Primary School Physical Education and Subject Leadership'
